

Vichy Showers

ADVANCED DESIGN TECHNOLOGY

Featuring an exclusive design, our company offers a series of Vichy Showers made from high end metallurgical material to accommodate any wet treatment space. Offering an innovative hydro-massage, this Vichy can easily adapt from a fine, misty water massage, to a directional pressured massage. Ideal for maximizing anti-stress treatment benefits, relieving guest aches and pains and stimulating blood circulation.

- Temperature Gauge
- Thermostatic Mixing Valve
- Stainless Steel Swivel Rainbar
- Precision Made Rainbar Spray Heads
- Interchangeable Wand
- Top Grade ABS Control Panel
- Acrylic Splash Guard

Vichy Showers

Our Vichy Showers feature heavy duty directional Spray Heads. Each Spray Head offers easy to clean water ports while allowing the direction of the spray to swivel 360 degrees with built-in individual shut off valves. The Rainbar is constructed of heavy gauge 304 Rust Proof Stainless Steel which can swing 90 degrees either side from center, covering a wide area of spray action. The Vichy Control Panel is constructed using precision-made valves. A thermostatic valve is included to adjust to the desired water temperature. Readout of the exact temperature is performed by the accurate temperature gauge graduated in both Fahrenheit and Centigrade degrees.
